Chapters of this book offer a careful selection of the best contributions to the Italian Association for Information Systems (ItAIS) Annual Conference, that took place in Venice, San Servolo Island, in October 2007. The main goal of this book is to disseminate academic knowledge, both theoretical and pragmatic, in the information systems community. Recognizing the relevance of many different disciplines, the book takes an interdisciplinary approach to the subject of information systems, thus providing a comprehensive and current coverage of this important area. ItAIS (<http://www.itaais.org>) is the Italian chapter of the Association for Information Systems (<http://www.aisnet.org>). It was established in 2003 and has since been promoting the exchange of ideas, experience and knowledge among both academics and professionals committed to the development, management, organization and use of information systems. The aim of this book is to discuss how universities are acting in an entrepreneurial way by responding to educational and social challenges. This will help to understand fruitful new areas of teaching, research, service and engagement that can occur in a university setting based on entrepreneurial thinking. A Global Perspective on Private Higher Education provides a timely review of the significant growth of private higher education in many parts of the world during the last decade. The book is concurrent with significant changes in the external operating environment of private higher education, including government policy and its impact on the ongoing growth of the sector. The title brings together the trends relating to the growth and the decline of private higher education providers, also including the key contributing factors of the changes from 17 countries. Provides a timely review of the significant growth of private higher education in many parts of the world during the last decade Presents the significant changes in the external operating environment of private higher education Brings together the trends relating to the growth and the decline of private higher education providers This book examines a range of issues emerging from the interaction of Information Technologies and organizational systems. It contains a collection of research papers focusing on themes of growing interest in the field of Information Systems, Organization Studies, and Management. The book offers a multidisciplinary view on Information Systems aiming to disseminate academic knowledge. It might be particularly relevant to IT practitioners such as information systems managers, business managers and IT consultants. The volume is divided into six sections, each one focusing on a specific theme. The content of each section is based on a selection of the best papers (original double blind peer reviewed contributions) presented at the annual conference of the Italian chapter of AIS, which has been held in Rome, Italy in September 2012. Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century. In the Handbook of Transnational Crime and Justice, Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws, crimes, and criminal justice responses to transnational crime. This concise, reader-friendly handbook is organized logically around four major themes: the problem of transnational crime; analysis of specific transnational crimes; approaches to its control; and regional geographical analyses. Each comprehensive chapter is designed to be explored as a stand-alone topic, making this handbook an important textbook and reference tool for students and practitioners alike. This book contains a collection of research papers on accounting information systems including their strategic role in decision processes, within and between companies. An accounting system is a complex system composed of a mix of strictly interrelated elements such as data, information, human resources, IT tool, accounting models and procedures. Accounting information systems are often considered the instrument by default for accounting automation. This book aims to sketch a clear picture of the current state of AIS research, including design, acceptance and reliance, value-added decision making, interorganizational links, and process improvements. The contributions in this volume emphasize that AIS has grown into a powerful strategic tool. The book provides evidence for this observation by examining a wide range of current issues ranging from theory development in AIS to practical applications of accounting information systems. In particular it focuses on themes of growing interest in the realm of XBRL and Financial Reporting, Management Information Systems, IT/IS Audit and IT/IS Compliance. The book will be of interest to financial and managerial accountants and IT/IS practitioners, including information systems managers and consultants. Gathering unique and thoughtful contributions from leading international scholars, this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged. It presents an in-depth analysis that reflects the current state of research on rankings, their influence and impact. This book consists of an anthology of writings. The aim is to honour Marco to celebrate the 35th year of his academic career. The book consists of a collection of selected opinions in the field of IS. Some themes are: IT and Information Systems organizational impacts, Systems development, Business process management, Business organization, e-government, social impact of IT. Con Prove simulate per corsi di laurea a numero chiuso e a numero programmato corsi di laurea con verifica delle conoscenze iniziali. This book discusses the foundations of social and environmental accounting and highlights local differences in countries like Italy and Bulgaria. It also describes the institutional environment, which affects the development and application of environmental accounting and reporting, as a basis for evaluating current achievements and the future steps that need to be taken to develop and spread environmental accounting. The book is unique in presenting exemplary cases from different emerging and developed countries. It is a valuable resource for theorists in the field, practitioners in companies, as well as investors and other stakeholders. Moreover, it provides students with the necessary theoretical constructs, empirical studies as well as practical and managerial tools to allow for a quick orientation in the methodology, techniques and selected practices used in environmental accounting and reporting. The aim of this book is to discuss how universities are acting in an entrepreneurial way by responding to educational and social challenges. This will help to understand fruitful new areas of teaching, research, service and engagement that can occur in a university setting based on entrepreneurial thinking. This book presents selected articles that discuss important issues related to entrepreneurship in Brazil, Russia, India and China as well as contributions from authors whose countries have a tradition on entrepreneurship support, such as Italy and the UK. The articles were presented and discussed in a conference on Entrepreneurship in Brazil in November 2013 organized by the Institute of Economics of the Federal University of Rio de Janeiro and IBMEC Business School. This book covers four essential themes: financing entrepreneurs, innovation environments, social entrepreneurship and e-entrepreneurship. This book, now in its second edition, provides an in-depth overview of all segments of the structured finance business, with particular reference to market trends, deal characteristics and deal structuring. The goal is to assist readers in gaining a clear understanding of the common features of structured finance transactions. The process of deal structuring for each type of transaction is carefully analyzed, with extensively updated chapters on asset securitization, project finance, structured leasing transactions and leveraged acquisitions. In the new edition, particular attention is paid to novel areas of intervention, such as public-private partnerships and non-performing loans in the resolution of bank restructuring. Although the subject of much criticism, structured finance, when used properly, offers an effective solution to the credit crunch that many European countries are suffering and is also a way to revive a single capital market for debt instruments. Readers will find this book to be an illuminating guide to the business and to the best market practices in organizing transactions. It will be of value for BSc and MSc finance students, professionals and consultants alike. Macrotrend of our present: instructions for use. We live in the age of endless change. Technological innovations are profoundly and irreversibly affecting our everyday life. Progress seems somehow to subvert individual and collective parameters in such a way that often we tend to ask ourselves what we can do for machines more than what they can do for us. In these pages the author shares a participating and curious gaze to the deep changes of our times, with the ongoing tension to draw together the scattered pieces of information left by our uncertain present and to gain new keys to interpretation. From the new technologies of AI and ubiquitous computing to the growing issues of international security, from the so called Fourth Industrial Revolution to the new paradigm of the sharing economy, from the role of the technological mammoths in the new world order to the changes in the labour market and the increasing societal inequality: a bunch of burning issues are here addressed both with intellectual commitment and conversational levity, with the aim to foster public debate and awareness and to help present day and future leaders to shape new policies, both at business and governmental level. "Politica, cultura, economia." (varies) La Guida all'Università e ai test di ammissione 2020/2021, aggiornata alla nuova offerta formativa con una nuova sezione dedicata all'orientamento e nuove prove simulate, fornisce gli strumenti per conoscere tutti i corsi di laurea, scegliere con consapevolezza e mettersi alla prova con i test di ammissione. Le università sono suddivise per regione e numerate progressivamente, in modo da poterle reperire con facilità grazie all'indice geografico e

all'indice delle università per classi di laurea. Il volume, completamente rivisto nella struttura, consente di: autovalutarsi grazie a un questionario di orientamento; conoscere il percorso formativo universitario; scoprire gli atenei regione per regione; identificare, grazie alle icone immediate, i corsi di laurea con programmazione nazionale e locale; simulare un test di ammissione, completo di soluzione, così da verificare la preparazione. This book is the first comparative analysis of global faculty salaries, remuneration, and terms of employment. Offering an in-depth international comparison of academic salaries in 28 countries, chapter authors shed light on the conditions and expectations that shape the modern academic profession. This valuable book provides a much needed resource, illuminating the key issues and offering recommendations. Viviamo un'epoca di cambiamento continuo, caratterizzata da innovazioni tecnologiche che incidono in maniera profonda e irreversibile sulla vita quotidiana di tutti. Il progresso tecnologico appare infatti così capace di sconvolgere i parametri dell'individuo e della collettività da rovesciare l'interrogativo su cosa l'uomo possa fare delle macchine in cosa le macchine possano fare dell'uomo. In questo libro il lettore può condividere uno sguardo curioso e partecipe alle trasformazioni in atto, cercando di arrivare a una sintesi di pensiero, di ottenere nuove chiavi interpretative. I molti temi trattati rappresentano i principali macrotrend socio-economici e socio-politici del momento: dalle nuove tecnologie alla sicurezza internazionale, dalla quarta rivoluzione industriale al nuovo paradigma economico della sharing economy, dai colossi sovranazionali della new economy alle trasformazioni del mercato del lavoro e alle crescenti disuguaglianze sociali. Ecco allora uno spunto di riflessione, una provocazione intellettuale che, da un lato, si propone di stimolare il confronto e di aggregare le idee e, dall'altro lato, rappresenta il tentativo di coinvolgere i leader presenti e futuri invitandoli ad assumersi l'arduo compito di incentivare, far crescere ed ampliare il dibattito pubblico intorno ai temi fondanti dell'oggi, e di individuare percorsi possibili a servizio delle scelte politiche, aziendali e personali dei prossimi anni. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 10.0px Arial} p.p2 {margin: 0.0px 0.0px 0.0px 0.0px; font: 10.0px Arial; min-height: 11.0px} p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 10.0px Arial} p.p2 {margin: 0.0px 0.0px 0.0px 0.0px; font: 10.0px Arial; min-height: 11.0px} "Includes 8 real tests and official answer explanations"--Cover.
